Choose us for your home care.

- We have years of experience and a passion for care
- Our care is **always** centred on our clients needs, it's never the same for 2 people
- Our staff are carefully selected, vetted and committed to an on-going training programme
- We focus on ensuring our clients will only be supported by a few carers who will get to know you really well
- We recommend visits of a minimum of one hour a day, however if your care plan requires several visits in a day then this may be 30 minute visits but never shorter than this, we believe it takes this time to provide the service that our clients want
- We always recognise the importance of dignity and respect when providing personal services i.e. dressing, bathing, medicines management, continence care
- Our domestic support helps people stay independent at home for longer
- We are CQC registered. Yet clients often say it's the companionship we bring with a smile and willing ear that makes our care so special

Please visit our web site and learn more, call us or pop in to our offices we would love to meet you.

Our Services

Enabling independence at home is all about delivering support where it is needed most, with services selected to suit each client. We are here to provide as much or as little support as desired, whether that is an hour on an occasional basis or on a regular visit schedule leading up to 24 hour live-in support.

We also provide support for carer/family rest breaks.

Our list of services is a guide of the most frequently requested services, so if you need support with anything that is not listed please do not hesitate to ask. We are confident that we can meet your exact requirements and would be delighted to be given the opportunity to do so.

Often our help is provided with the support of families and sometimes we support GP's and other healthcare professionals with their care plans.

Who do we help?

- Anyone who simply feels certain tasks are becoming difficult and could use a little support and companionship
- Those needing personal care from getting up, dressing, to bathing and continence care
- Families who worry about supporting parents or not having the right skills to help
- Carers who need support for themselves

Support in and around the home

- Help with dressing and bathing
- help with continence and medicines
- Help with preparing and planning meals
- Laundry and ironing
- Shopping for weekly groceries
- Changing bed linen and towels
- Dusting and vacuuming *[light]*
- Cleaning bathrooms and kitchens *[light]*
- Companionship visits at home.
- Encouraging and maintaining contact with family and friends
- Accompanying on holidays, day trips or other short breaks
- Escorting home from hospital
- Re-ablement support
- Visits into the community i.e. to the Doctors, Hairdressers, Hospital, and Pensions etc.
- Help with hobbies and supporting exercise.
- Arranging and accompanying to prayer and worship meetings
- Bringing a smile and fresh approach to your day

Respite for the carers

We often meet wonderful carers who provide all the care they can alone. However, it's important to give yourself time away. This could be for just a few hours or longer while you take a holiday to refresh yourself and not lose sight of your own needs.

With respite care available from us, you can have the time you need for yourself without compromising your peace of mind about the safety and care of your loved one.

Call us on **0118 997 7499** or e mail:
